Location

The UK’s best connected industrial zone offering direct connectively by road, rail, sea and air. The premises can be linked directly to the national rain network.

The site has already attracted major commitments from international companies such as SeAH Wind (1.1 million sq. ft plant under construction) and energy giant BP, leading a consortium in the delivery of a 60 acre carbon capture utilisation and storage (CCUS) plant to include power generation.

Infrastructure

From Transport connections to electricity, gas and water supplies, Teesworks is a ready home for large industry.

Teeworks has a high resilience 480MVA electricity supply fed by quadruple connections from National Grid into the site’s private wire network.

Description

The property comprises high bay steel framed storage premises offering large volume economical floorspace with up to 2 acres of external hardstanding.

The premises is equipped with a number of heavy duty overhead cranes; these are not certified and would require the tenant to recommission them.
